

PRACTICAL – 2

Problem Definition: Develop static HTML5 skeletons for at least 10 StudentHub pages such as Home, About, Register, Login, Dashboard, Events, Profile, Contact, Admin, FAQ, and Feedback. Use semantic tags and accessibility-friendly structure.

Code/Script/Task:

HTML(Index.html):

```

index.html M X  profile.html M  courses.html M  register.html M  login.html M  dashboard-faculty.html M  event.html
index.html > html
2  <html lang="en">
9  <body>
26  <main class="container">
32  <section class="announcements">
41      <article class="card">
42          <h3>Annual Tech Fest Registration Open</h3>
43          <p class="date">July 28, 2026</p>
44          <p>Register for coding competitions and robotics workshops before August 15.</p>
45      </article>

4 | Page

Profile page :

The screenshot shows the 'User Profile' page of the StudentHub Portal. The page has a dark blue header with the StudentHub logo on the left and 'Dashboard' and 'Profile' links on the right. The main content area is light gray and contains a white card titled 'User Profile'. Inside the card, there are three input fields: 'Full Name' with the placeholder 'Student Name', 'Email Address' with the placeholder 'student@studenthub.com', and 'Change Password' with the placeholder 'Enter new password'. A blue 'Save Changes' button is at the bottom of the card. The footer is dark blue and contains the text '© 2026 StudentHub Portal | Designed by Jigar Kotecha'.

Contact page :

The screenshot shows the 'Contact & Support' page of the StudentHub Portal. The page has a dark blue header with the StudentHub logo on the left and a navigation menu with links: 'Dashboard', 'Courses', 'Assignments', 'Attendance', 'Profile', 'Events', 'Contacts', and 'Logout'. Below the header is a light blue breadcrumb trail showing 'Home / Contact'. The main content area is light gray and contains a white card titled 'Contact & Support'. Inside the card, there is a message: 'Have a question or feedback? Fill out the form below and our team will get back to you.' followed by four input fields: 'Full Name *' with placeholder 'Enter your full name', 'Email Address *' with placeholder 'student@example.com', 'Query Category' with a dropdown menu showing 'Academic Query', and 'Your Message *' with placeholder 'Write your query here...'. A blue 'Submit Query' button is at the bottom of the card. The footer is dark blue and contains the text '© 2026 StudentHub Portal'.

Register page :

The screenshot shows the 'Create Account' registration form. It has a dark blue header with a logo on the left and 'Home' and 'Login' links on the right. The form is centered on a light blue background. It contains fields for 'Full Name' (with 'John Doe' as a placeholder), 'Email Address' (with 'jigarkotecha52@gmail.com' as a placeholder), 'Register As' (a dropdown menu set to 'Student'), and 'Password' (with a masked placeholder '*****'). A blue 'Register' button is at the bottom of the form.

Login page :

The screenshot shows the 'Student & Faculty Login' page. It has a dark blue header with the 'StudentHub Academic Portal' logo and name on the left, and a navigation menu with 'Home', 'Courses', 'Assignments', 'Attendance', 'Profile', 'Events', and 'Contacts' on the right. Below the header, there is a breadcrumb 'Home / Login'. The login form is centered on a light blue background. It includes a title 'Student & Faculty Login', a subtitle 'Please enter your institutional credentials to access your dashboard.', and two input fields: 'Enrollment Number or Email *' (with 'jigarkotecha52@gmail.com' as a placeholder) and 'Password *' (with a masked placeholder '*****'). There is a checkbox for 'Remember me on this device' and a dark blue 'Log In' button. At the bottom of the form, there is a link: 'New to StudentHub? [Register for an account here.](#)'. The footer of the page contains the copyright notice: '© 2026 StudentHub Portal | Designed for Accessibility & Semantics.'

© 2026 StudentHub Portal | Designed for Accessibility & Semantics.

Question & Answer:**1. Are semantic tags such as header, nav, main, section, article, aside, and footer used properly?**

Yes, semantic HTML tags are used correctly throughout the website. They clearly define different sections of each page, making the code more organized and easier to maintain. They also improve accessibility and help search engines understand the page structure. Overall, the semantic layout follows good web development practices.

2. Are form labels, headings, image alt text, and navigation links accessible?

Yes, form fields have appropriate labels, headings follow a logical hierarchy, and images include descriptive alt text. Navigation links are clear and easy to use with both mouse and keyboard. These features improve accessibility for all users, including those using screen readers. The website follows basic accessibility guidelines.

3. Is the page structure consistent across all pages?

Yes, all pages maintain a consistent layout with the same header, navigation bar, main content area, and footer. This provides a uniform look and feel across the website. Users can easily navigate between pages without confusion. The consistent design also improves usability and overall user experience.

Conclusion / Learning Outcome:

The **Student Hub** website provides a clean, user-friendly, and well-structured platform for students. It uses semantic HTML, consistent page layouts, and accessible navigation to ensure a good user experience across all pages. The responsive design and organized interface make it easy for users to access features on different devices. Overall, the website follows good web development practices and effectively meets its goal of providing a simple and accessible student portal.
